San Diego Reiki Corps Presents:

Introduction to Medical Intuition
with Medical Intuitive Wendie Colter

Supercharge your Holistic Healthcare Practice with Medical Intuition!

Imagine having the ability to "see" someone's illness simply by focusing your thoughts on them! Medical Intuition is a powerful skill that actually enhances your natural intuition. You can learn to accurately view the sources and underlying causes of illness and pain for the healing of others, yourself, and your loved ones.

Wendie Colter, Medical Intuitive and Master Healer, is one of a very few instructors of medical intuition in the U.S., successfully training doctors, nurses, therapists and energy healers.

Join us for a fascinating event to learn how Medical Intuition can be used to enhance and support the effectiveness of all healing modalities, and also how it can also be used on its own as a practical skill set. In this workshop, you will get hands-on experience in how to use your intuition for self-healing and self-care.

"A great course that provides the tools for anyone to enhance their intuition."
- Mimi Guarneri, MD, FACC, ABOIM
President, Academy of Integrative Health & Medicine (AIHM)
